Height: _____

Special Notes:

DETAILS

- Minimum face height cannot be less than 2"
- Maximum face height cannot exceed 5"
- Pleat specification will determine overall face projection. 2" is added to the overall projection of the fascia to cover pleats.
- If pleats are to be covered, the minimum face height cannot be less than 3"
- If pleats are not to be covered, and ONLY the track is to be covered, the projection of the fascia will be 1" greater than your drapery projection.
- Fascia's mount on independent brackets that are painted the same finish as the fascia. Brackets have the same backplate as our horizontal mount brackets.
- Fascia's are secured to the brackets using provided machine screws.
- Fascia's are available in 2", 3", 4", & 5" face height's.
- Fascia's can be used on all Kirsch products, all of our motorized products, and various other window treatment products. Please contact us for more details.
